EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on 8 March 2007, Mr. Raymond Chan requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 502111 the required fee of \$60 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 5-19 (Canceled).

Claim 21 (Currently amended)

2. Claims 21-24 are allowed. Claim 21 is the independent claim.

3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is British Patent GB 2 268 909 A to Tsai, which was applied to the claims in the office action mailed 7 November 2006. Suffice it to say, the patent to Tsai does not disclose "a third side edge and an opposed fourth side edge of said mouth are flat surfaces corresponding to said third and fourth sides of said post

Art Unit: 3722

respectively, wherein a first side edge of said mouth is a smooth curve edge aligning with said first side of said post, wherein a second side edge of said mouth is a sharp shoulder edge aligning with said second side of said post", or "said smooth curve portion of said locking head fits to said smooth curve edge of said mouth to form a smooth curve site while said sharp shoulder of said locking head latches with said sharp shoulder edge to form a tooth pawl side such that said locking head is detached from said button cap only when said smooth curve portion of said locking head disengages with said smooth curve edge of said mouth at one direction of said first side of said post so as to prevent said locking head unintentionally detached from said button cap at three directions of said second to fourth sides of said button post" as claimed in independent claim 21, and as such does not anticipate the instant invention as disclosed in independent claim 21.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Tsai, and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
